

FDA Staff Manual Guides, Volume I – Organizations and Functions

Department of Health and Human Services

Food and Drug Administration

Center for Devices and Radiological Health

Office of Strategic Partnerships and Technology Innovation

Office of Supply Chain Resilience

Division of Prevention, Innovation, and Resilience

Effective: August 8, 2023

1. Division of Prevention, Innovation, and Resilience (DCCCHB).

- A. Promotes the availability of safe and effective medical devices for patients, healthcare workers, and the U.S. public by employing advanced analytics, technologies, and modeling to proactively monitor and communicate risks to stakeholders in the medical device ecosystem.
- B. Advances the Center for Devices and Radiological Health integrated approaches for collecting and utilizing supply chain data to enable rapid assessment and proactive interventions.
- C. Develops, establishes, and fosters strategic partnerships with key U.S. Government, international, and non-governmental stakeholders across the medical device ecosystem to enhance prevention, communication, and coordination and strengthen resiliency.
- D. Leads and coordinates integrated approaches for advancing evidence-based, data-driven regulatory and policy decisions impacting medical device supply chain resiliency.
- E. Researches, develops, fosters and shares innovative solutions that promote the availability of safe and effective medical devices.

2. Authority and Effective Date.

The functional statements for the Division of Prevention, Innovation, and Resilience were approved by the Secretary of Health and Human Services on June 27, 2023, and effective on August 8, 2023.
