Re: Submission of Clinical Trial Results Information Pursuant to 42 U.S.C. 282(j)  
**FDA Reference Number: CDER-2025-122**  
NCT04347239, NCT02859961, NCT03902522 and NCT02355184

Dear Dr. Cunningham:

Based on an initial review of Food and Drug Administration (FDA) records, information from the ClinicalTrials.gov data bank operated by the National Library of Medicine, a part of the National Institutes of Health, and any available public information, it appears that CytoDyn Inc. is the “responsible party”<sup>1</sup> for the above-identified clinical trials, which appear to be “applicable clinical trials”<sup>2</sup> subject to the requirements of section 801 of the Food and Drug Administration Amendments Act of 2007, including its implementing regulations in 42 CFR part 11. A responsible party for an applicable clinical trial is required to submit to the ClinicalTrials.gov data bank certain results information for the clinical trial; such results information generally must be submitted no later than one year after the primary completion date<sup>3</sup> of the applicable clinical trial, unless the responsible party has submitted a timely certification of delay, a request for an extension for good cause, or a request for a waiver of the requirements for submission of results information.<sup>4</sup>

---

<sup>1</sup> See sections 402(j)(1)(A)(ix) of the Public Health Service Act (PHS Act) (42 U.S.C. 282(j)(1)(A)(ix)) and 42 CFR 11.10 for the definition of “responsible party.”

<sup>2</sup> See sections 402(j)(1)(A)(i)-(iii) of the PHS Act (42 U.S.C. 282(j)(1)(A)(i)-(iii)) and 42 CFR 11.10 for the definition of “applicable clinical trial.”

<sup>3</sup> See section 42 CFR 11.10 for the definition of “primary completion date.” See also 402(j)(1)(A)(v) of the PHS Act (42 U.S.C. 282(j)(1)(A)(v)), which defines “completion date.” As reflected in 42 CFR 11.10, the terms “primary completion date” and “completion date” are synonymous for the purposes of 42 CFR part 11.

<sup>4</sup> See sections 402(j)(3)(E) and (H) of the PHS Act (42 U.S.C. 282(j)(3)(E) and (H)) for results information submission requirements.

FDA has identified potential noncompliance related to the above-identified clinical trials, titled as follows:

- “A Phase 2b/3, Randomized, Double Blind, Placebo Controlled, Adaptive Design Study to Evaluate the Efficacy and Safety of Leronlimab for Patients With Severe or Critical Coronavirus Disease 2019 (COVID-19)”
- “A Phase 2b/3, Multicenter Study to Assess the Treatment Strategy of Using PRO 140 SC as Long-Acting Single-Agent Maintenance Therapy for 48 Weeks in Virologically Suppressed Subjects With CCR5-tropic HIV-1 Infection”
- “A Multi-center, Two-Part, Single-Arm, Open Label, 25-Week Trial With PRO 140 in Treatment-Experienced HIV-1 Subjects”
- “Extension of Protocol PRO140\_CD01 to Evaluate Long-term Suppression of HIV-1 Replication Following Substitution of Stable Combination ART With PRO 140 (Monoclonal CCR5 Antibody) Monotherapy for Additional 160 Weeks in Adult Subjects w/ HIV-1”

It appears that results information for the referenced trials has not been submitted to the ClinicalTrials.gov data bank<sup>5</sup>. Moreover, it appears that your company failed to update the clinical trial registration information with any changes, including the responsible party contact information for these clinical trials as required under 42 CFR 11.64(a)(1)(i)(A).<sup>6</sup> Your company should review its records of these clinical trials and determine whether your company submitted all required information. If your company determines that information is required and due for these clinical trials, please submit the information promptly.

Failure to submit clinical trial information<sup>7</sup> required under section 402(j) of the PHS Act (42 U.S.C. 282(j)), including information required under the regulations found in 42 CFR part 11, is a prohibited act under section 301(jj)(2) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 331(jj)(2)). Beginning 30 calendar days after you receive this letter, FDA intends to further review and assess the above-identified clinical trials. If FDA determines that your company has failed to submit any clinical trial information required under section

<sup>5</sup> We acknowledge that, as recently as April 13, 2023, for NCT04347239, and October 13, 2022, for NCT02355184, your company entered results information into the National Library of Medicine Protocol Registration and Results System (PRS); however, your company did not complete the process for submitting results information, and the preliminary steps taken by your company do not constitute submission of results information under 42 CFR 11.44(a).

<sup>6</sup>For applicable clinical trials initiated before January 18, 2017, such as the referenced clinical trial, section 402(j)(4)(C)(i)(I) of the Public Health Service Act (42 U.S.C. 282(j)(4)(C)(i)(I)) generally requires the responsible party to submit updates not less than once every 12 months to reflect any changes. If your company is no longer the responsible party for this clinical trial, your company should notify FDA and must update this information in the ClinicalTrials.gov data bank.

<sup>7</sup> See section 402(j)(1)(A)(iv) of the PHS Act (42 U.S.C. 282(j)(1)(A)(iv)) and 42 CFR 11.10 for the definition of “clinical trial information.”

402(j) of the PHS Act (42 U.S.C. 282(j)), including its implementing regulations in 42 CFR part 11, your company may receive from FDA a Notice of Noncompliance,<sup>8</sup> and FDA may thereafter initiate an administrative action seeking a civil money penalty.<sup>9</sup> In addition to civil money penalties, violations of section 301(jj) of the FD&C Act (21 U.S.C. 331(jj)) could result in other regulatory action, such as injunction and/or criminal prosecution, without further notice.

As requested, please review your company's clinical trial records and submit any required results information to the ClinicalTrials.gov data bank. We also request that you review all applicable clinical trials for which your company is the responsible party to ensure compliance with all ClinicalTrials.gov registration and results information submission requirements. You can access the ClinicalTrials.gov website at <https://register.clinicaltrials.gov>.

We request that you submit a written response to FDA within 30 calendar days after you receive this letter, stating the actions you have taken in response to this letter. If you believe that your company has complied with applicable requirements, please provide us with your reasoning and include any supporting information for our consideration.

Should you have any questions or concerns regarding this letter, please e-mail FDA at [CDER-OSI-Advisory@fda.hhs.gov](mailto:CDER-OSI-Advisory@fda.hhs.gov). Please include the FDA reference number with any e-mail communications. Your written response, including FDA reference number, should be addressed to:
