Re: GRAS Notice No. GRN 001207

Dear Ms. Yu:

We are issuing a revised copy of the response letter for GRN 001207. The original letter for this GRAS notice was signed on April 10, 2025. In an email dated April 15, 2025, CIRS GROUP USA INC (CIRS) noted an error in our original response letter, which referred to the production organism, *Aspergillus oryzae* 90402, as a “yeast.” CIRS’ email noted that the production organism is not a yeast species.

As a follow up to this email, we revised the April 10, 2025, response letter to change the word “yeast” to “fungus” in paragraph 5 of the original response letter.

We regret any inconvenience that our error may have caused. If you have any questions, please contact me by email at christopher.kampmeyer@fda.hhs.gov or by telephone at 240-402-1255.

Sincerely,

Christopher P. Kampmeyer -S
