

MARIA GOGOVA MD, PHD

SUMMARY	<p>Maria Gogova, M.D., Ph.D., serves as Vice President & Chief Scientific Officer for Altria Client Services. In this role, Dr. Gogova leads the science organization by developing and guiding scientific strategies for Altria's family of companies and builds the scientific capabilities needed to achieve Altria's Vision.</p> <p>Previously, Dr. Gogova has served as Vice President, Regulatory Sciences, focusing her team's work in support of Altria's tobacco product portfolio, including reduced-risk products.</p> <p>Dr. Gogova joined the Altria family of companies in 2002. During her tenure, she has held several positions that enabled and supported responsible product development by generating scientific evidence related to the reduced-risk products made by Altria Group's tobacco companies.</p> <p>She applies her past experience as a physician, investigator, clinical study manager and clinical pharmacologist to shape Altria's framework for bringing reduced harm tobacco products to market.</p> <p>She is a natural problem solver with proven capabilities managing large projects and multimillion dollar budgets, building and leading high performing internal and external cross-functional project teams, and anticipating emerging scientific and technological advances to manage business goals and lead through change.</p>
