

FDA's ITACS Account Management

Import Trade Auxiliary Communications System

October 2025

Food and Drug Administration

Division of Import Business Informatics & Solutions

Import Business Solutions Branch

Topics

- Background and Overview
- Creating a New Account
- Retrieving Notices of FDA Action from ITACS
- View line by line status history report
- Managing your Account, Users, and Groups

Background and Overview

ITACS web access currently provides the Import Trade Community with 4 functions:

- ❖ Check the status of FDA-regulated entries and lines
- ❖ Submit entry documentation electronically
- ❖ Submit the location of goods availability for those lines targeted for FDA exam
- ❖ Check the estimated laboratory analysis completion dates

No login accounts are necessary to access these functions. All that is needed is a valid Customs entry number that has been successfully transmitted to FDA.

Background and Overview

ITACS Account Management allows users to:

- ❖ Receive Notices of FDA Action via email*
- ❖ Retrieve Notices of FDA Action as downloads from within ITACS
- ❖ View the details of specific information requests, which are also distributed as Notices of FDA Action
- ❖ View line by line status history report

ITACS accounts will also allow for future enhancements requested by the Import Trade Community which require user verification.

*Receipt of Notices of FDA Action via email is optional and will take the place of paper Notices if chosen. Account users will be able to retrieve Notices by downloading them from within ITACS regardless of whether they opt to receive them via email or regular mail.

Background and Overview

- ITACS Account Management functionality may be used by customs brokers (entry filers), importers of record, and consignees with an approved ITACS account.
- ITACS accounts are limited to one individual per firm at the corporate level. This person should be a high-ranking individual within the firm as they will have the responsibility to create and manage ITACS subaccounts for other users within their firm.
- *Note that an ITACS account is not required to import FDA regulated goods. To be granted an ITACS account a firm must have been a party (Filer, Importer of Record, and/or Consignee) to at least one previously transmitted, non-disclaimed FDA entry.*

Benefits of ITACS Accounts

Benefits of ITACS accounts include:

- Faster receipt of Notices of FDA Action either via e-mail or via download from within ITACS
- No need to wait for hard copy mailed Notices of FDA Action
- No need to maintain paper copies of Notices of FDA Action as they will continue to be available in ITACS even after an entry is closed
- Faster receipt of requests for specific information either via email or via download within ITACS
- Can view/download line by line status history report

Creating an ITACS Account

- NOTE – If you already have an FDA ~~FURLS~~ Online Account Administration (OAA) account, you do not need to set up a new account. You can update your existing account access to include ITACS.

- Existing account types may include but are not limited to:
 - Food Facility Registration
 - Prior Notice System Interface
 - Acidified/Low-Acid Canned Foods Registration
 - Device Registration
 - Voluntary Qualified Importer Program
 - Tobacco Registration and Listing

Creating an ITACS Account

User Roles

Only one Firm Administrator Account is allowed per firm. A Firm Administrator Account should be created by the person who is authorized to act as the Firm Administrator

❖ **Firm Administrator** can:

- Create, Deactivate, Reactivate Firm subaccounts
- Create, Modify, Delete groups
- Grant/Transfer Group Admin and Firm Admin privileges

❖ **Group Administrator** can:

- Create new subaccounts
- Add/Remove Users to their own group
- Modify group settings

❖ **Firm User** can:

- Modify own user account
- Access ITACS account functionality

Creating an ITACS Account

- Click on the [ITACS Account Log-in\(FURLS\)](#) link on any ITACS screen
- Or go directly to the FDA Online Account Administration (OAA) page: <https://www.access.fda.gov/oaa/>
