**Translation of reports and regulations relating to the handling of foodstuffs**

We, the privately-owned translation agency (b) (4), have assisted Swedish Match North Europe AB (henceforth the "Customer") with the translation of various documents from Swedish into English.

We would like in this letter to confirm that we have carried out the work with care and that the texts we have delivered in a digital format to the customer accurately reflect the content of the material.

With the caveat that the material may have undergone minor refinements at the customer (which is fully understandable) and that these changes are beyond our control, we can nevertheless be of assistance in providing answers to questions concerning part or parts of the material that might be subject for special scrutiny.

You can read more about (b) (4) on our website (b) (4)

Best regards,
