## Definitions:

**Aquaculture (AQ)** - the cultivation of shellfish in controlled conditions for human consumption. Cultivation includes propagation and growing of shellfish. These activities may occur in natural or man-made water bodies. These activities include seed collection, production, and cultivation in natural water bodies when shellfish are held off the bottom such as the use of racks, bags, or cages, and when shellfish are held in man-made water bodies such as the use of tanks, ponds, or raceways. These activities do not include depuration or wet storage.

**Dealer** - A person to whom certification is issued for the activities of shellstock shipper, shucker-packer, repacker, reshipper, or depuration processor.

**Depuration Processor (DP)** - A person who harvests or receives shellstock from growing areas in the approved or conditionally approved, restricted, or conditionally restricted classification and submits such shellstock to an approved depuration process.

**Post Harvest Processor (PHP)** - A shellfish dealer that has incorporated a post-harvest process.

**Repacker (RP)** - A person, other than the original certified shucker-packer, who repackages shucked shellfish into other containers. A repacker also may repack and ship shellstock. A repacker shall not shuck shellfish.

**Reshipper (RS)** - A person who purchases shellfish from dealers and sells the product without repacking or relabeling to other dealers, wholesalers, or retailers.

**Shellfish** - All species of bivalve mollusks (e.g. oysters, clams, mussels, cockles) whether:

(i) shucked or in the shell;
(ii) raw, including post-harvest processed;
(iii) frozen or unfrozen;
(iv) whole or in part; and
Scallops in any form, except when the final product form is the adductor muscle only, attached or unattached to the shell.

**Shellstock Shipper (SS)** - A dealer who grows, harvest, buys, or repack and sells shellstock. They are not authorized to shuck shellfish nor to repack shucked shellfish. A shellstock shipper may also buy, repack, and sell in-shell product as well as ship shucked shellfish.

**Shucker-Packer (SP)** - A person who shucks and packs shellfish. A shucker-packer may act as a shellstock shipper or reshipper or may repack shellfish originating from other certified dealers.

**Wet Storage (WS)** - the storage, by a dealer, of shellstock from growing areas in the approved classification or in the open status of the conditionally approved classification in containers or floats in natural bodies of water or in tanks containing natural or synthetic seawater at any permitted land-based activity or facility.
