This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

You did not identify and evaluate each known or reasonably foreseeable hazard and include an evaluation of environmental pathogens for each type of animal food you manufacture, process, pack or hold in your facility.

Specifically, your hazard analysis does not identify or evaluate the following known or reasonably foreseeable hazards that are associated with the manufacture of your (b) (4) pet foods:

1. Salmonella as a biological hazard needing control at the (b) (4) step in your processing.
2. Recontamination with Salmonella as a biological hazard needing control at the (b) (4) step in your processing where the pet food post (b) (4) and (b) (4) is exposed to the environment.
3. Salmonella as a biological hazard associated with the use of the (b) (4) onto the pet food post (b) (4) and (b) (4).
4. Aflatoxins, Fumonisin, and Deoxynivalenol (DON) as chemical hazards associated with the receiving of grains you use to manufacture your pet food.
5. Nutrient Deficiencies and Toxicities as a chemical hazard associated with the vitamin (b) (4) (b) (4) added to your mixer used in the manufacture of your pet food.

This is a repeat observation from the previous inspection(s) conducted on 03/15/2022 (written observation).

The observations of objectionable conditions and practices listed on the front of this form are reported:

1. Pursuant to Section 704(b) of the Federal Food, Drug and Cosmetic Act, or
2. To assist firms inspected in complying with the Acts and regulations enforced by the Food and Drug Administration.

Section 704(b) of the Federal Food, Drug, and Cosmetic Act (21 USC 374(b)) provides:

"Upon completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the officer or employee making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by him which, in his judgment, indicate that any food, drug, device, or cosmetic in such establishment (1) consists in whole or in part of any filthy, putrid, or decomposed substance, or (2) has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health. A copy of such report shall be sent promptly to the Secretary."
