This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM I OBSERVED:

OBSERVATION 1

You offered a food-producing animal(s) for interstate commerce that was found to bear or contain a drug residue in an edible tissue above an established safe level, safe concentration, or tolerance.

Specifically, a calf bearing backtag number (b) (4) was delivered for slaughter on (b) (4), and was found to have illegal residues of Sulfamethezine in muscle tissue. The USDA reported under Case No. (b) (4) that the calf, as identified above, had a Sulfamethezine residue in the muscle. No established tolerance is approved for this class of animal. The calf was transported to the sale on (b) (4) and was slaughtered on (b) (4)

OBSERVATION 2

You did not inquire about the medication status of the animal(s) that you purchased and delivered for sale at an auction barn.

Specifically, on 06/03/2025, you sold a calf at a sale barn with back tag number (b) (4). You stated that you did not treat the calf or inquire about the medication status of the animal. The calf identified as back tag (b) (4) was purchased by a dealer on (b) (4) and slaughtered on (b) (4). The USDA reported under case no. (b) (4) that the calf, as identified above had a Sulfamethazine residue in the muscle. No established tolerance is approved for this class of animal.

The observations of objectionable conditions and practices listed on the front of this form are reported:

1. Pursuant to Section 704(b) of the Federal Food, Drug and Cosmetic Act, or
2. To assist firms inspected in complying with the Acts and regulations enforced by the Food and Drug Administration.

Section 704(b) of the Federal Food, Drug, and Cosmetic Act (21 USC 374(b)) provides:

"Upon completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the officer or employee making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by him which, in his judgment, indicate that any food, drug, device, or cosmetic in such establishment (1) consists in whole or in part of any filthy, putrid, or decomposed substance, or (2) has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health. A copy of such report shall be sent promptly to the Secretary."
