Mynor Perrez Ramirez, Calf Feeder/Treator

FIRM NAME	STREET ADDRESS
Arthur Silva and Son Dairy	12636 W Main Ave
CITY, STATE, ZIP CODE, COUNTRY	TYPE ESTABLISHMENT INSPECTED
Crows Landing, CA 95313-9600	Dairy

This document lists observations made by the FDA representative(s) during the inspection of your facility. They are inspectional observations, and do not represent a final Agency determination regarding your compliance. If you have an objection regarding an observation, or have implemented, or plan to implement, corrective action in response to an observation, you may discuss the objection or action with the FDA representative(s) during the inspection or submit this information to FDA at the address above. If you have any questions, please contact FDA at the phone number and address above.

DURING AN INSPECTION OF YOUR FIRM WE OBSERVED:

OBSERVATION 1

You offered food-producing animal(s) for interstate commerce that was found to bear or contain a drug residue in an edible tissue above an established safe level, safe concentration, or tolerance.

Specifically, on (b) (4) and (b) (4), you sold two bull calves that were slaughtered for food for human consumption. These two calves, identified with back tag numbers (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) were picked up from your dairy and identified. These two calves were delivered to a slaughter plant and slaughtered for food for human consumption on (b) (4) and (b) (4), respectively. USDA tests revealed the presence of Neomycin in the kidneys of these two calves at (b) (4) ppm and (b) (4) ppm, respectively. The tolerance for Neomycin in the edible tissues of calves has been established at 7.2 ppm.

OBSERVATION 2

You did not use an approved drug according to directions specified in your veterinarian's prescription for route of administration.

Specifically, you are using (b) (4) brand (b) (4) labeled (b) (4) to medicate your calves for the treatment of diarrhea. Your treator stated he had been instructed to inject (b) (4) into (b) (4) (b) (4) l. Your veterinarian has prescribed this product to be administered intramuscularly, intravenously, or subcutaneously. Your veterinarian did not prescribe this product to be administered in animal food.

OBSERVATION 3

You did not keep treatment records.

Specifically, your treator stated that he is not recording medication treatments to your calves. When asked, he said he had not been instructed to record these medication treatments.

The observations of objectionable conditions and practices listed on the front of this form are reported:

1. Pursuant to Section 704(b) of the Federal Food, Drug and Cosmetic Act, or
2. To assist firms inspected in complying with the Acts and regulations enforced by the Food and Drug Administration.

Section 704(b) of the Federal Food, Drug, and Cosmetic Act (21 USC 374(b)) provides:

"Upon completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the officer or employee making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by him which, in his judgment, indicate that any food, drug, device, or cosmetic in such establishment (1) consists in whole or in part of any filthy, putrid, or decomposed substance, or (2) has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health. A copy of such report shall be sent promptly to the Secretary."
