Dosing the Doxycycline and Water Mixture Mixed With Food

1. Give all of the Doxycycline and Water and food mixture in the second bowl. This is one dose.

2. Each child or adult should take 1 dose in the morning and 1 dose at night each day.

Storing the Doxycycline and Water Mixture (If There Is Enough for Another Dose)

- If you have enough leftover doxycycline and water mixture for another dose, you can keep it for the next dose.
- The doxycycline and water mixture can be stored in a covered bowl or cup. Label and date.
- Keep the mixture in a safe place out of the reach of children.
- Store the Doxycycline and Water Mixture at room temperature for up to 24 hours.
- Throw away any unused mixture after 24 hours and make a new Doxycycline and Water Mixture before the next dose.

Do not take doxycycline if you have an allergy to tetracyclines

Get emergency help if you have any signs of an allergic reaction including hives, difficulty breathing, or swelling of your face, lips, tongue or throat.

Doxycycline may cause diarrhea, skin reaction to the sun, loss of appetite, nausea and vomiting. Birth control pills may not work as well if you take doxycycline.

Report any reaction to the medication to MedWatch at www.fda.gov/medwatch or 1-800-FDA-1088

In an Emergency: How to Prepare Doxycycline for Children and Adults Who Cannot Swallow Pills

Mixing Doxycycline Hyclate 100mg Tablets with Food

Once you have been notified by your federal, state or local authorities that you need to take doxycycline for a public health emergency, it may be necessary to prepare emergency doses of doxycycline for children and adults who cannot swallow pills.

June 2008
Prepared by the U.S. Food and Drug Administration
4. Add the right amount of the Doxycycline and Water Mixture from the chart above to the second bowl. For adults and children 89 pounds and more, use the entire mixture.

5. Add 3 teaspoons of milk or chocolate milk or chocolate pudding or apple juice to the second bowl. If you use apple juice, also add 4 teaspoons of sugar to the second bowl.

6. Stir well. If you use apple juice, stir until no visible pieces remain.

4. Add the right amount of the Doxycycline and Water Mixture from the chart above to the second bowl. For adults and children 89 pounds and more, use the entire mixture.

5. Add 3 teaspoons of milk or chocolate milk or chocolate pudding or apple juice to the second bowl. If you use apple juice, also add 4 teaspoons of sugar to the second bowl.

6. Stir well.

3. Let the pill soak in the water for 5 minutes so it will be soft.

2. Add 4 full teaspoons of water to the same bowl.

1. Put 1 doxycycline pill in a small bowl.
