Dear Mr. Garvin:

It has come to our attention that you are currently marketing the Gene Essence™, a personalized DNA assessment service, intended to provide a detailed analysis of one's DNA, including genes found to be associated with a variety of health-related conditions such as cancer. The Gene Essence™ appears to meet the definition of a device as that term is defined in section 201(h) of the Federal Food Drug and Cosmetic Act.

We have conducted a review of our files, and have been unable to identify any Food and Drug Administration (FDA) clearance or approval number for the Gene Essence™. We request that you provide us with the FDA clearance or approval number for the Gene Essence™. If you do not believe that you are required to obtain FDA clearance or approval for the Gene Essence™, please provide us with the basis for that determination.

If you would like to meet with us to discuss whether there are tests you are promoting that do not require review by FDA and what information you would need to submit in order for your product to be legally marketed, let us know and we will schedule a meeting with you. Please direct your questions and response to:

James L. Woods
Deputy Director, Patient Safety and Product Quality
