

SMG 1355.1

FDA Staff Manual Guides, Volume I – Organizations and Functions

Department of Health and Human Services

Food and Drug Administration

Center for Tobacco Products

Office of Science

Effective: January 6, 2022

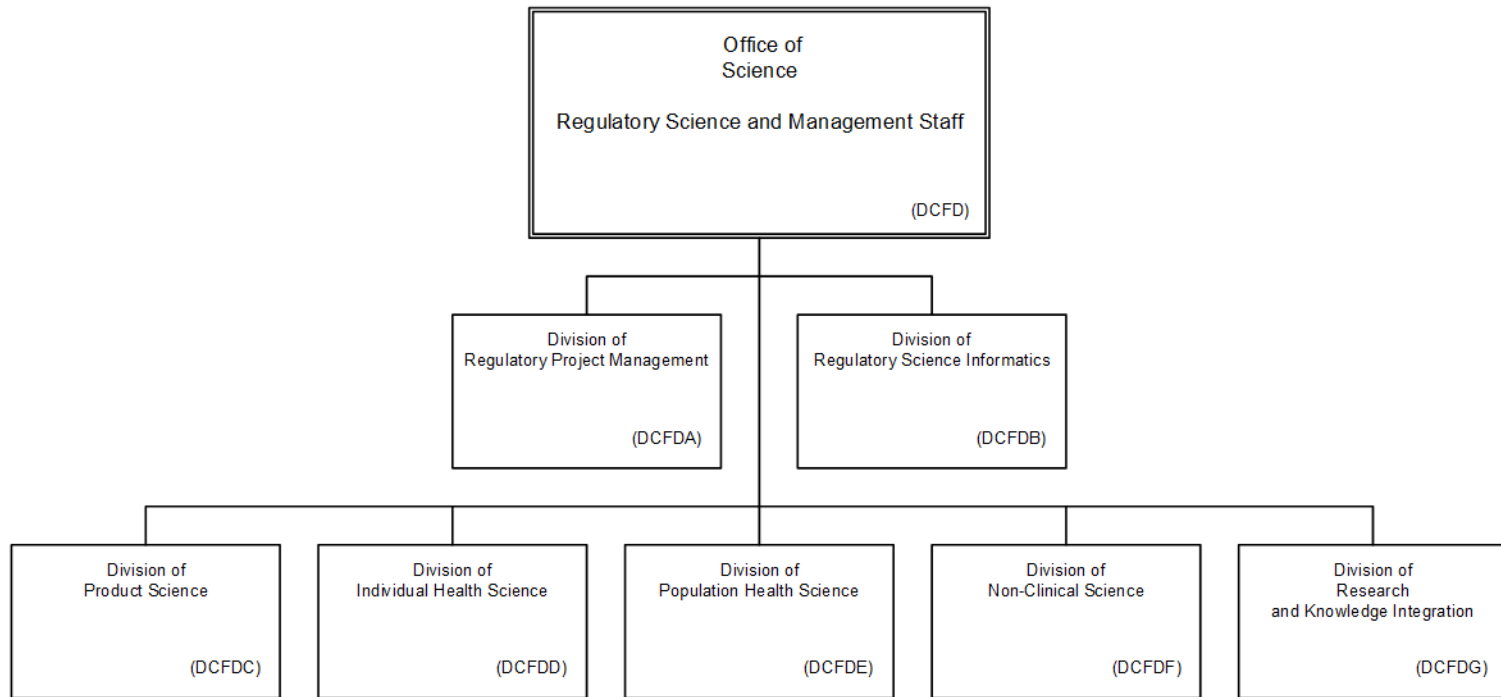

1. Office of Science (DCFD).

- A. Conducts scientific research and product review programs to support the Center's goals for implementing the Family Smoking Prevention and Tobacco Control Act, as part of a comprehensive effort to reduce the toll of disease, disability, and death caused by tobacco products.
- B. Serves as the focal point for overall management of Center activities related to science priorities and resources. Advises and assists the Center Director, Commissioner of Food and Drugs, and other key officials on scientific issues related to tobacco product regulation that have an impact on public health, policy, direction, and long-range goals, and on the functions, capabilities, and management of scientific research facilities; and participates with other agency components in planning such facilities.
- C. Represents the Center in interactions with other government agencies, state and local governments, industry, academia, consumer organizations, Congress, national and international organizations, and the scientific community on tobacco science and regulation issues.

2. Authority and Effective Date.

The functional statements for this Office were approved by the Deputy Secretary of Health and Human Services on October 22, 2021, and effective on January 6, 2022.
