

FDA Staff Manual Guides, Volume I – Organizations and Functions

Department of Health and Human Services

Food and Drug Administration

Center for Food Safety and Applied Nutrition

Effective Date: December 14, 2018

1. Center for Food Safety and Applied Nutrition (DCE).

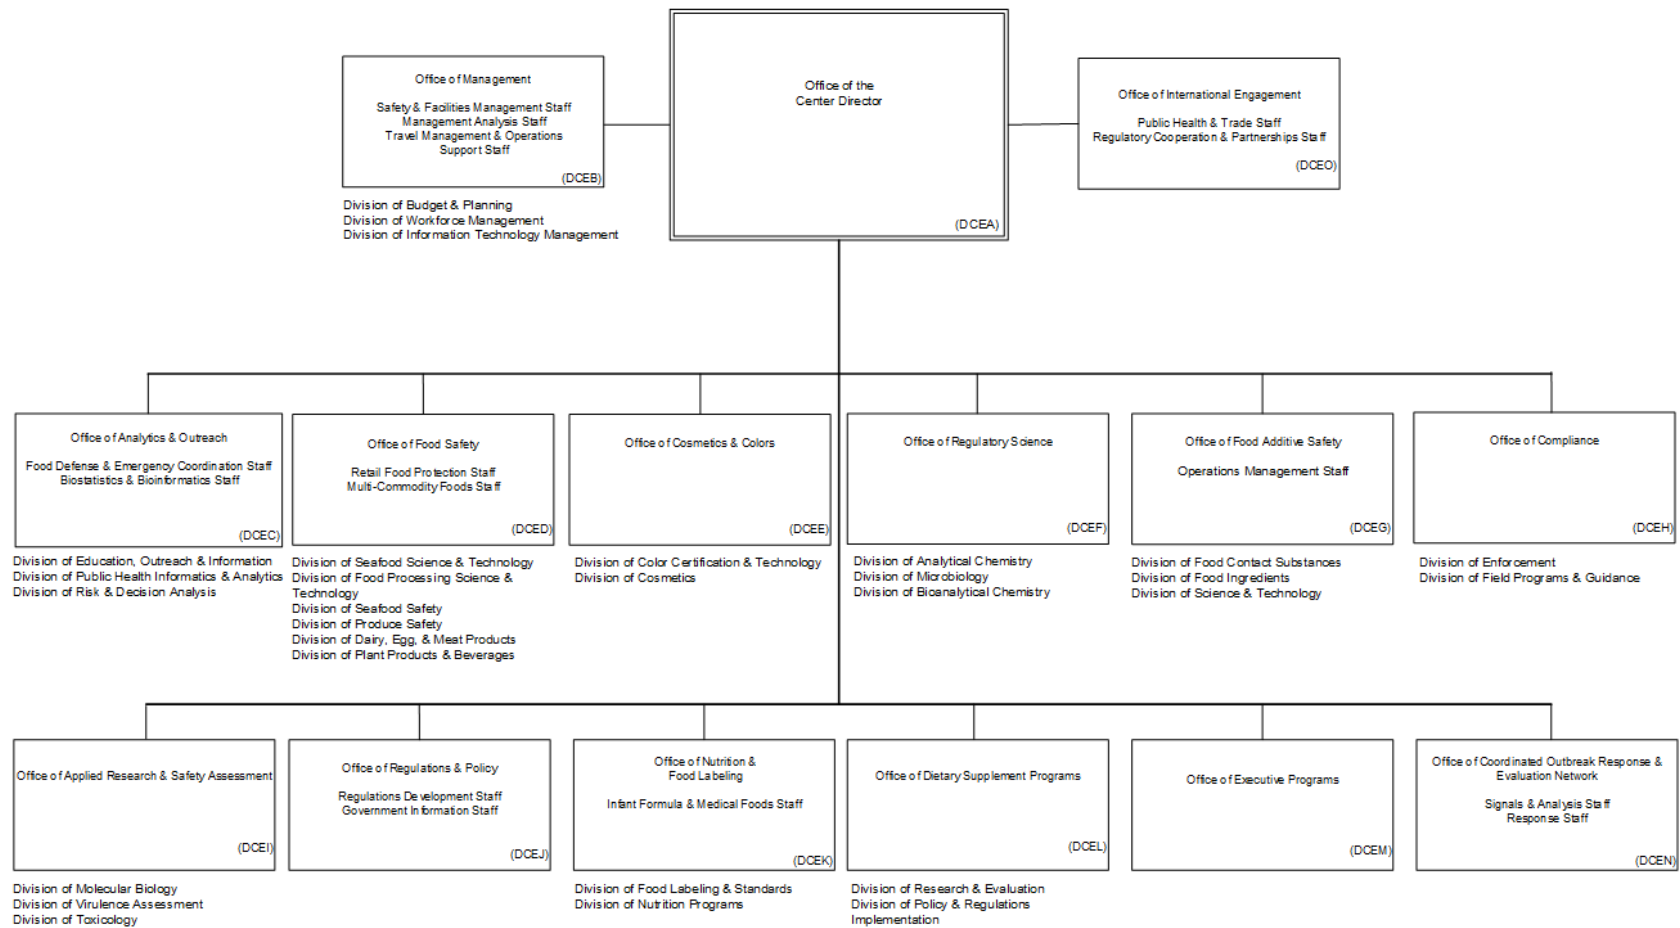

- A. Provides leadership and direction for all Center activities and coordinates programs with other Food and Drug Administration (FDA), Department and government agencies, including compliance with the FDA Food Safety Modernization Act.
- B. Develops FDA policy with regard to the safety, effectiveness, and proper labeling of all regulated foods and cosmetic related products for human and animal use.
- C. Establishes and manages a program to maintain the highest level of quality and integrity for all Center laboratory studies and the processing of regulatory samples, and ensures that all laboratories are in compliance with Good Laboratory Practice Regulations.
- D. Coordinates with the Veterinary Medicine program regarding activities for veterinary related-drug products. Such activities include research, compliance, and product review and approval.
- E. Develops and disseminates information and educational material dealing with regulated foods and cosmetic related products to the community and the public in coordination with the Office of the Commissioner.
- F. Monitors marketed food products advertising and promotional labeling to assure their accuracy and integrity of regulated foods and cosmetic related products for human and animal use.
- G. In carrying out these functions, cooperates with other FDA components, governmental and international agencies, volunteer health organizations, universities, individual scientists, nongovernmental laboratories, and manufacturers of marketed and regulated foods and cosmetic related products to ensure food protection and cosmetic related products compliance.

H. Provides leadership and direction for FDA outbreak activities including preparedness, response, environmental assessments and post-response activities associated with FDA-regulated human and animal food, dietary supplements, and cosmetics.

2. Authority and Effective Date.

The functional statements for the Center for Food Safety and Applied Nutrition were approved by the Secretary of Health and Human Services and effective on December 14, 2018.

Department of Health and Human Services Food and Drug Administration Center for Food Safety and Applied Nutrition

The following is the Department of Health and Human Services, Food and Drug Administration, Center for Food Safety and Applied Nutrition, Office of the Center Director organization structure depicting all the organizational structures reporting to the Director:

The Offices report to the Office of the Center Director (DCEA):

The staff and divisions report to the Office of Management (DCEB):

- Safety and Facilities Management Staff
- Management Analysis Staff
- Travel Management and Operations Support Staff
- Division of Budget and Planning
- Division of Workforce Management
- Division of Information Technology Management

These staffs and divisions report to the Office of Analytics and Outreach (DCEC):

- Food Defense and Emergency Coordination Staff
- Biostatistics and Bioinformatics Staff
- Division of Education, Outreach and Information
- Division of Public Health Informatics and Analytics
- Division of Risk and Decision Analysis

These staffs and divisions report to the Office of Food Safety (DCED):

- Retail Food Protection Staff
- Multi-Commodity Foods Staff
- Division of Seafood Science and Technology
- Division of Food Processing Science and Technology
- Division of Seafood Safety
- Division of Produce Safety
- Division of Dairy, Egg, and Meat Products
- Division of Plant Products and Beverages

These divisions report to the Office of Cosmetics and Colors (DCEE):

- Division of Color Certification and Technology
- Division of Cosmetics

These divisions report to the Office of Regulatory Science (DCEF):

- Division of Analytical Chemistry
- Division of Microbiology
- Division of Bioanalytical Chemistry

The staff and divisions report to the Office of Food Additive Safety (DCEG):

- Operations Management Staff
- Division of Food Contact Substances
- Division of Food Ingredients
- Division of Science and Technology

These divisions report to the Office of Compliance (DCEH):

- Division of Enforcement
- Division of Field Programs and Guidance

These divisions report to the Office of Applied Research and Safety Assessment (DCEI):

- Division of Molecular Biology
- Division of Virulence Assessment
- Division of Toxicology

These staffs report to the Office of Regulations and Policy (DCEJ):

- Regulations Development Staff
- Government Information Staff

The staff and divisions report to the Office of Nutrition and Food Labeling (DCEK):

- Infant Formula and Medical Foods Staff
- Division of Food Labeling and Standards
- Division of Nutrition Programs

These divisions report to the Office of Dietary Supplement Programs (DCEL):

- Division of Research and Evaluation
