

SMG 1240.1

FDA Staff Manual Guides, Volume I – Organizations and Functions

Department of Health and Human Services

Food and Drug Administration

Center for Veterinary Medicine

Effective Date: December 14, 2018

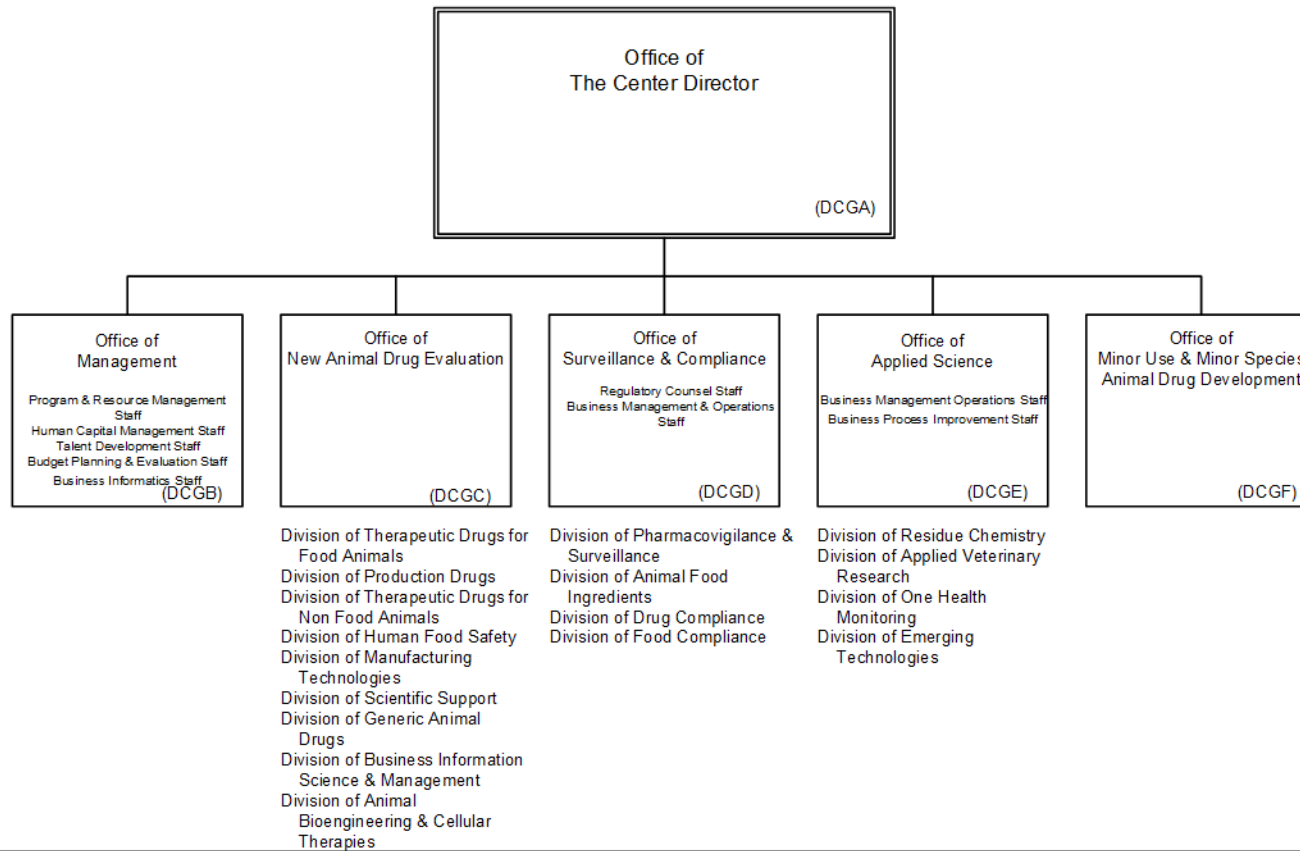

1. Center for Veterinary Medicine (DCG).

- A. Develops and recommends the policy of the Agency with respect to the safety and effectiveness of animal drugs, feeds, feed additives, veterinary medical devices (medical devices for animal use), and other veterinary medical products, and in cooperation with other Agency components, provides policy development and direction on environmental impact matters.
- B. Evaluates, for animal safety and effectiveness, proposed and marketed animal drugs and feed additives and marketed veterinary medical devices.
- C. Coordinates the veterinary medical aspects of FDA inspectional and investigational programs and provides veterinary medical opinions in drug hearings and court cases.
- D. Plans, directs, and evaluates the FDA's surveillance and compliance programs relating to animal drugs, feeds, feed additives, veterinary medical devices, and other veterinary medical products.

2. Authority and Effective Date.

The functional statements for the Center for Veterinary Medicine were approved by the Secretary of Health and Human Services and effective on December 14, 2018.
