

FDA Staff Manual Guides, Volume I – Organizations and Functions

Department of Health and Human Services

Food and Drug Administration

Center for Veterinary Medicine

Office of New Animal Drug Evaluation

Division of Therapeutic Drugs for Non-Food Animals

Effective Date: December 14, 2018

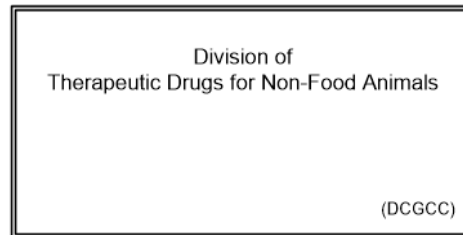

1. Division of Therapeutic Drugs for Non-Food Animals (DCGCC)

- A. Evaluates, for animal safety and effectiveness, new animal drug applications for wildlife and domestic non-food animals, evaluates proposed labeling to assure that it clearly indicates the use and limitations of the product and provides other required information, and recommends procedures to establish the safety and effectiveness of drugs for wildlife and non-food animals and provides such information to investigators and manufacturers.
- B. Determines the adequacy of information submitted to support proposed use of investigational drugs in non-food animals.
- C. Evaluates division activities to ensure compliance with the National Environmental Policy Act (NEPA).
- D. Recommends, and may participate in, intramural and extramural research projects to be conducted by the Center's Office of Science to gain further information on drugs for wildlife and non-food animals.
- E. Participates in the development and implementation of regulations, guidance and policies pertaining to drugs intended for use in wildlife and non-food animals.
- F. Provides technical support and expert testimony in legal proceedings relative to the approval of new animal drugs for wildlife and non-food animals.

2. Authority and Effective Date.

The functional statements for the Division of Therapeutic Drugs for Non-Food Animals were approved by the Secretary of Health and Human Services and effective on December 14, 2018.
