

Scientific Achievement Awards

Individual Award Recipients

Outstanding Support Scientist

2009–Present

This award recognizes the outstanding achievements of a support scientist who, under the direction of the principal investigator, lab director or supervisor, has been highly instrumental in the accomplishments and successes of the lab or regulatory review office. This nominee must demonstrate a high degree of dedication and assistance in the conception, development, technical aspects, and implementation of laboratory or regulatory review projects.

2015

Edward Gordon, CDRH

For the development of methods and specimen to test efficacy of disinfectant apparatuses.

2014

Qingsu Xia, M.D., NCTR

In recognition of superior research accomplishments and sustained scientific productivity in the study of pyrrolizidine alkaloid-induced carcinogenesis

2013

Martin Ho, M.S., CDRH

For significant statistical and scientific contributions to the FDA within DBS, CDRH, and in FDA-wide activities.

2012

Edward L. E. Jester, B.S., CFSAN

For outstanding contributions in the development and implementation of rapid screening and confirmatory methods for chemical contaminants in seafood

2011

Kevin White, B.S., CFSAN

For outstanding work in support of the development of mass spectrometric methods for the analysis of marine toxins and mycotoxins

2010

David Melka, M.S., CFSAN

For distinguished service as CFSAN's PulseNet investigator in conducting detailed analytical support and data interpretation related to foodborne outbreak responses and compliance efforts for 2009

2009

Kathleen R. El Said, BS, CFSAN

For outstanding contributions in the development of methods for aquaculture drugs and marine biotoxins in seafood species
