

SMG 1117A.7

FDA Staff Manual Guides, Volume I – Organizations and Functions

Department of Health and Human Services

Food and Drug Administration

Office of Operations

Office of Information Management and Technology

Effective Date: December 14, 2018

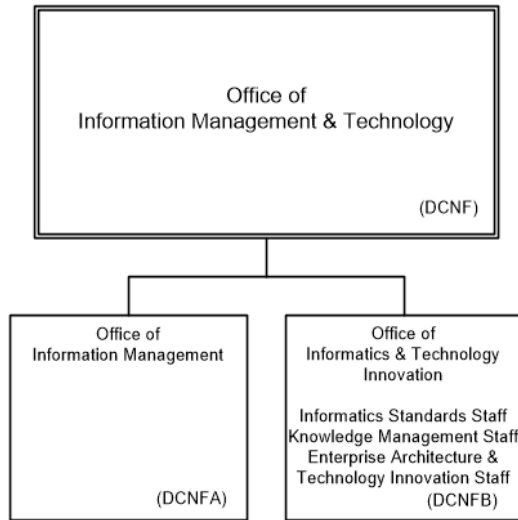

1. Office of Information Management and Technology (DCNF).

- A. Develops the architecture, standards, policies, governance, best practices and technology road map that support the business priorities of the Food and Drug Administration (FDA).
- B. Ensures FDA conformance with the Clinger/Cohen Act.
- C. Provides leadership and direction regarding all aspects of the FDA's Information Technology (IT) programs and initiatives including operations, systems management, information security, strategic portfolio, and executive coordination and communication activities.
- D. Works in full partnership with FDA business areas, develops and communicates the overall vision for the FDA's IT programs.
- E. Provides expert technical evaluations and recommendations for new and emerging technologies to ensure the FDA's IT and innovation technology programs can proactively adjust to changing business needs and technology drivers.
- F. Establishes policies and procedures for system risk assessments and system business continuity and contingency planning.

2. Authority and Effective Date.

The functional statements for the Office of Information Management and Technology were approved by the Secretary of Health and Human Services and effective on December 14, 2018.
