* Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee.

INGREDIENTS

Ingredients as defined by AAFCO.

MIXING DIRECTIONS

Blend 200 pounds of BlueBird Swine Feed #2 medicated with 1800 pounds of grain or non-medicated supplement and grain to provide ONE TON of complete feed which contains 100 grams of lincomycin, 0.0106% (96 g/ton) pyrantel tartrate.

CAUTION: Not to be fed to swine that weigh more than 250 pounds. Do not mix in feeds containing bentonite. Occasionally, swine fed lincomycin may within the first two days after the onset of treatment develop diarrhea and/or swelling of the anus. On rare occasions, some pigs may show reddening of the skin and irritable behavior. These conditions have been self-correcting within five to eight days without discontinuing the lincomycin treatment. The effects of lincomycin on swine reproductive performance, pregnancy, and lactation have not been determined. Do not allow rabbits, hamsters, guinea pigs,

horses, or ruminants access to feeds containing lincomycin. Ingestion by these species may result in severe gastrointestinal effects.

WARNING: WITHDRAW 6 DAYS PRIOR TO SLAUGHTER.
