Caution: For External Animal Use Only
This product is not to be used in animals intended for use as food for humans or other animals. Use of this product is prohibited in dogs, cats, and horses and in food-producing species such as cattle, pigs, chickens, turkeys, rabbits, deer, ducks, pigeons and turtles.

Antiseptic Barrier Ointment
(Benzalkonium chloride and Polyhexanide topical ointment)

Active Ingredients
Benzalkonium Chloride 0.405g/100mL
Polyhexanide 0.03g/100mL

Purpose
Antiseptic
Antiseptic

A BROAD SPECTRUM TOPICAL ANTISEPTIC OINTMENT

Uses:
For the treatment of mild and localized cases of bumblefoot (pododermititis) in caged raptors and pet birds.
For use as a topical antiseptic for:
- more severe cases of bumblefoot to assist healing after surgery in caged raptors and pet birds.
- surface wounds on raptors, pet birds, captive small mammals, captive reptiles and captive exotic/zoo mammals.

Use only when there is a reasonable certainty that the treated animal will not be consumed by humans or food-producing animals.

Do not use: Do not use with soaps or other chemicals.

Human Warnings:
Not for use in humans.
Keep out of reach of children.
If accidentally ingested, do not induce vomiting. Give milk or water to drink.
If accidental eye contact, hold eye open and rinse with water for 10 minutes.

 Seek medical attention if necessary.
