Caution: For External Animal Use Only

This product is not to be used in animals intended for use as food for humans or other animals. Use of this product is prohibited in dogs, cats, and horses and in food-producing species such as cattle, pigs, chickens, turkeys, rabbits, deer, ducks, pigeons and turtles.

Uses:
For use as a topical antiseptic to treat surface wounds, to repel flies and to treat infestations due to fly strike in raptors, pet birds, captive small mammals, captive reptiles and captive exotic/zoo mammals.

Use only when there is a reasonable certainty that the treated animal will not be consumed by humans or food-producing animals.

Do not use:
Do not use with soaps or other chemicals.

This product is extremely toxic to fish, aquatic invertebrates, oysters and shrimp. Do not apply directly to or near water.

Do not use if animal is bathed or exposed to rain. If the wound persists or worsens, contact your veterinarian.

Disposal
Do not reuse container. If empty, place in trash or recycle if available. If partly filled, contact your local solid waste agency for disposal instructions.

Human Warnings:
Not for use in humans.

Keep out of reach of children.

Do not contaminate food, water, eating utensils, or food contact surfaces. Wash hands before eating or drinking.

If accidentally ingested, contact a Poison Control Center or a doctor. Do not induce vomiting unless advised to by the Poison Control Center or a doctor.

If accidental eye contact, hold eye open and rinse with water for 10 minutes. Seek medical attention if necessary.

To obtain product information, including Material Safety Data Sheets (MSDS) e-mail: info@f10products.com

Directions for Use:
Use disposable gloves during application and wash hands thoroughly after use.

Clean the wound prior to application. Apply a layer of ointment over the entire wound site. Repeat once a week, if necessary or as advised by your veterinarian. This product is water soluble and should be reapplied if animal is bathed or exposed to rain. If the wound persists or worsens, contact your veterinarian.

Active Ingredients
Benzalkonium Chloride 0.405g/100mL
Polyhexanide 0.03g/100mL
Cypermethrin 0.25g/100g

Purpose
Antiseptic
Antiseptic
Insecticide
