ATTN: TEMPORARY BACKORDER OF NYMALIZE® (NIMODIPINE) ORAL SOLUTION- UPDATE

Dear Valued Arbor Customer:

Thank you for your continued patience during the backorder of Nymalize® (nimodipine) Oral Solution 60mg/20mL. I wanted to provide you with an update so that your institution can plan accordingly. Nymalize will continue to be on backorder for both the **Nymalize Bottles (NDC# 24338-200-16) and the Unit Dose Cups (NDC# 24338-200 12)** potentially through the summer. It is important to note that this backorder situation is temporary and should not impact the future supply of this important pharmaceutical product.

During this backorder period, drop ship orders can continue to be placed through your wholesaler and can be held for immediate processing and fulfillment once the backorder is resolved. In addition, we will continue to proactively communicate updates on estimated release dates through our supply chain/ drop ship partner for those customers that wish to be kept informed during this period.

Again, we sincerely apologize for the inconvenience that this presents to your pharmacy operations and will continue to keep you updated on the availability of Nymalize. Rest assured, we will immediately ship all orders once product is available.

Temporarily on Backorder:

Nymalize® (nimodipine) Oral Solution, 16 oz. bottle (473mL)

NDC# 24338-200-16

Tentative Availability Date: September 2015

Nymalize® (nimodipine) Oral Solution 60mg/20mL Unit Dose Cups (12 cups/carton)

NDC# 24338-200-12

Tentative Availability Date: October 2015

If you have any questions concerning the backorder, please call our supply chain/ drop ship partner, Safecor Health, at 1-800-447-1006 x 3117 or option 4. Thank you again for your patience.

Best Regards,
