

SUPPLEMENT APPROVAL

Our STN: BL **125158/187**

Sanofi Pasteur Biologics, LLC
Attention: Michael F. Stirr
38 Sidney Street
Cambridge, MA 18370

February 5, 2016

Dear Mr. Stirr:

We have approved your request to supplement your biologics license application (BLA) for Smallpox (Vaccinia) Vaccine, Live (ACAM2000[®]) to change the package insert to include clarifying revisions to Section 5 and to reflect the removal of the requirement to have a risk evaluation and mitigation strategy (REMS) as per our August 24, 2015, letter. Furthermore, we reference the withdrawal of your supplement to include your proposed REMS as per our September 17, 2015, letter under STN 125158/58.

Please provide your final content of labeling in Structured Product Labeling (SPL) format. All final labeling should be submitted as Product Correspondence to this BLA at the time of use (prior to marketing) and include implementation information on FDA Form 356h and FDA Form 2567 as appropriate.

In addition, please submit the final content of labeling (21 CFR 601.14) in SPL format via the FDA automated drug registration and listing system, (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled, "SPL Standard for Content of Labeling Technical Qs and As" at <http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

You may submit two draft copies of the proposed introductory advertising and promotional labeling with an FDA Form 2253 to the Advertising and Promotional Labeling Branch at the following address:

Food and Drug Administration
Center for Biologics Evaluation and Research
Document Control Center
10903 New Hampshire Ave.
WO71-G112
Silver Spring, MD 20993-0002

You must submit copies of your final advertisement and promotional labeling at the time of initial dissemination or publication, accompanied by Form FDA 2253 (21 CFR 601.12(f)(4)).

All promotional claims must be consistent with and not contrary to approved labeling. You should not make a comparative promotional claim or claim of superiority over other products unless you have substantial evidence or substantial clinical experience to support such claims (21 CFR 202.1(e)(6)).

Please submit an amendment to all pending supplemental applications for this BLA that include revised labeling incorporating a revised content of labeling that includes these changes.

We will include information contained in the above-referenced supplement in your biologics license application file.

Sincerely yours,

Wellington Sun, M.D.
Director
Division of Vaccines and
Related Products Applications
