Re: BK070070  
Trade/Device Name: HLA Fusion Software v 1.0  
Regulatory Class: Unclassified  
Product Code: MZI  
Date Recieved: March 7, 2008  
Received: March 10, 2008

Dear Mr. Arii:

*This letter corrects our substantially equivalent letter of March 10, 2008. The product code has been changed to MZI and FDA contact information has been updated.*

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, continue to market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. We remind you that device labeling must be truthful and not misleading.

If your device has been classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice on promotional labeling and advertisement for your device, please contact **CBER's Advertising and Promotional Labeling Staff at [CBERAPLB@fda.hhs.gov](mailto:CBERAPLB@fda.hhs.gov)**. If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact **CDRH's Division of Industry and Consumer Education at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address <http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm>**. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to <http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm>.

You may obtain other general information on your responsibilities under the Act from **CDRH's Division of Industry and Consumer Education at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address: <http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm>**.

If you have any minor clarification questions concerning the contents of the letter, please contact Cherry Geronimo at (240) 402-9555 or [cherry.geronimo@fda.hhs.gov](mailto:cherry.geronimo@fda.hhs.gov).

Sincerely,

Jay S. Epstein, MD  
Director
