RE: Bar Code Label Requirements for Human Drug Products

Dear Ms. Gross:

The purpose of this letter is to seek information about the above referenced topic and the public-input meeting that the FDA has planned for July 26, 2002.

I have just become aware of the meeting and have missed the July 12 deadlines for registration and attendance. Therefore, I respectfully request your advice and guidance as to what steps, processes and procedures my company, Barcoded Management Systems, Inc. ("BMS") must follow in order to (possibly) be a party to this critical healthcare-oriented initiative.

BMS is a well established, minority-owned Dayton, Ohio-based company founded in 1958. At that time, we were known as Buckeye Marking Systems. Soon after its development, barcode technology became the primary focus of our business and has been our only product and service line since the 1980's. We are experts at developing and installing barcode technology systems to solve complex issues of the day. Our customers rank among some of the most respected organizations throughout North America.

Your assistance in helping us understand the most appropriate manner for working with the FDA and/or other key agencies on this project will be greatly appreciated.

A self-addressed, stamped envelope is enclosed for your reply.

Sincerely and respectfully,

Ronald O. Braswell
Group Vice President
