September 10, 2001

Dear Sir or Madam:

This letter will serve as a 30 day notification pursuant to Section 6 of the Dietary Supplement Health and Education Act of 1994 that NBTY Inc. is using the following statements on the Daily Garlic supplement under the Major brand name.

- For centuries, Garlic has been used for its exceptional healing properties and more recently for its antioxidant properties.
- Natural ingredients in Garlic include alliin, allinase and allicin.
- Garlic promotes heart and cardiovascular health and helps maintain cholesterol levels that are already within the normal range.
- The coating serves as a protective barrier so that Major Garlic can be absorbed in the small intestine where it can provide you with the greatest benefits.

The above statements are accompanied by the required disclaimer pursuant to Section 6 of the Dietary Supplement Health and Education Act.

Sincerely,

Ona Scandurra, MS, RD
Director of Nutrition Communications
