Throughout time, the fruit of the Noni tree has brought health benefits to the people of the South Pacific.

In keeping with their traditions, Polynesians look to nature for their overall well-being. The most powerful plant used by generations of Polynesians is *Morinda Citrifolia*, known throughout the islands as Noni, Nonu and Nono. In fact, this plant is vitally important in Polynesian traditions because they believe it was brought to the South Pacific as one of the sacred plants considered essential to life.

Health and Vitality are priceless. So it's an added bonus that Enliven International products are made from the purest, most potent forms of Noni, are affordably priced and put good health within everyone's reach.

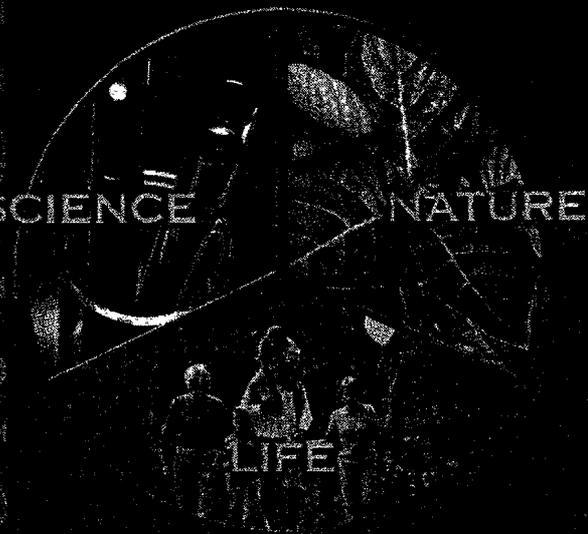

ROYAL PACIFIC NONI® Pure Juice has not been evaluated by the FDA. This product is not intended to treat, cure or prevent any disease, but rather is a dietary supplement intended solely for individual use for nutritional support.
