The effects of concentrated barley beta-glucan on blood lipids and other CVD risk factors in a population of hypercholesterolemic men and women. Submitted for publication to *J Fam Pract*. (Summary in Appendix 2)

Pins JJ, Keenan JM, Curry LL, Goulson MJ, Kolberg LW, Knutson NE, 2005a. Extracted barley beta-glucan improves metabolic control and blood lipid in metabolic syndrome population. Presented at First International Congress on Pre-Diabetic and Metabolic Syndrome, Berlin, Germany, April 13-16.

Pins JJ, Keenan JM, Goulson MJ, Kolberg LW, Knutson NE, 2005b. Extracted barley beta-glucan improves metabolic control and blood lipids in metabolic syndrome population. Poster presented at American College of Nutrition Annual Meeting, Charleston, SC, Sept. 22-25.

Pins JJ, Shamliyan T, Keenan JM, 2005c. Randomized clinical trial shows extracted barley-beta-glucan concentrate improves cardiovascular disease risk biomarkers in hypercholesterolemic adults after 6-weeks of treatment. Presented at American Heart Association Scientific Sessions, Dallas TX, Nov. 13-16.
