**Title: EnzyTrim™ Food Labeling; Label Change Notification**

Dear Dr. Walker:

This is in response of your letter of September 29, 2004 (Attached 3). You suggested us to make clear that our labels of EnzyTrim™ avoid implying that the product prevents or treats heart disease. A cholesterol maintenance claim would have to clarify that the product is only for maintenance of cholesterol levels that are already within the more range.

In order to comply with FDA guideline and your suggestions, we already changed the labels of EnzyTrim™. Original label was “ ~ maintain healthy blood cholesterol levels”, changed to “ maintain already healthy blood cholesterol levels”. I also have attached the following documents for your reference.

1. A original copy of the changed labels of EnzyTrim™ (Attached 1)
2. A copy of previous version labels of EnzyTrim™ (Attached 2)
3. Your letter of September 29, 2004 (Attached 3)
4. My letter of August 27, 2004 (Attached 4)

I certify that all of the information and the attached data presented in this notice are accurate and truthful. If I can be of any assistance, please contact me at [mokang@sedonalabs.com](mailto:mokang@sedonalabs.com) or 1-800-914-6311.

Sincerely yours,

Mo Kang, MBA, MS
