Food and Drug Administration

21 CFR Part 520

Oral Dosage Form New Animal Drugs; Decoquinatate; Technical Amendment

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending a final rule that provided for adding a dry powder containing decoquinatate to whole milk to be fed to calves for prevention of coccidiosis. The document incorrectly referred to those calves as replacement calves in the heading of § 520.534(d) (21 CFR 520.534(d)) for conditions of use. This document amends the regulation to state that decoquinatate is for use in calves.

EFFECTIVE DATE: March 2, 1999.

FOR FURTHER INFORMATION CONTACT: Janis R. Messenheimer, Center for Veterinary Medicine (HFV-135), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301-827-7578.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 2, 1999 (64 FR 10103), FDA added § 520.534 to reflect approval of Alpharma Inc.'s new animal drug application (NADA 141-060) for use of 0.8 percent decoquinatate powder in whole milk for ruminating and nonruminating calves including veal calves. In the heading for § 520.534(d), the document incorrectly stated that decoquinatate medicated milk was for use in replacement calves. This document amends the heading for § 520.534(d) to state that decoquinatate is for use in calves by removing the word "replacement".

List of Subjects in 21 CFR Part 520

Animal drugs.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 520 is amended as follows:

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS

1. The authority citation for 21 CFR part 520 continues to read as follows:

Authority: 21 U.S.C. 360b.

§ 520.534 [Amended]

2. Section 520.534 *Decoquate* is amended in the heading for paragraph (d) by removing the phrase "Replacement calves" and adding the word "Calves".
