RE: FDA Docket No. 00P-1211/CP1

TO: 1. President Bill Clinton  
2. Vice President Al Gore  
3. U.S. Senator Diane Feinstein  
4. U.S. Senator Barbara Boxer  
5. U.S. Rep. Henry Waxman  
6. FDA Commissioner Jane Henney

Dear Distinguished Government Leaders:

I am writing to express my concern about the dangers of genetically engineered food. I support the proposals to require labelling of all genetically engineered foods and to place a moratorium on new genetically engineered foods.

When a nation is force-fed unknowingly a new and potentially dangerous form of "food," then we are no longer living in a democracy. It becomes a dictatorship and we are the guinea pigs.

Please require labelling of all these Frankenstein foods, so we can exercise our God-given choice of free will and can refuse to buy them.

Yours faithfully

*Pauline J. Baker.*
