Michael J. Ryan  
Center for Devices and Radiological Health  
Food and Drug Administration  
9200 Corporate Blvd.  
Rockville, MD 20850

Dear Mr. Ryan:

I am a private practitioner and a principle investigator for the BPM-2 sinus augmentation implant five year study. My personal observation is that this protein works, and is the only osteo inductive material type on the market.

We implore you to give us the opportunity to use BMP and reduce our need for the use of cadaver bone, secondary site autografts and allografts. The use of BMP out of a bottle would greatly enhance our armamentarium.

Michael R. Wiland DDS

A handwritten signature in black ink, appearing to read "Michael R. Wiland, DDS". The signature is fluid and cursive, with a long horizontal stroke at the end.
