

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support the points in docket #00P-1211/CPI

All GE Foods should be labeled so I am informed and have a choice.

GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments):

Please help keep our food safe and healthy for us.

Commissioner Jane Henney

Docket No. 00P-1211/CPI
