

FDA,
writing to express my concern over the FDA's regulation of
genetically engineered (GE) food, to ask that the agency's current
policies be changed, and to support all the points in
docket # 00P-1211/CPI, specifically

• All GE foods should be labeled so I am informed
and have a choice.

• GE foods should not be assumed to be "generally
recognized as safe" and should have mandatory
pre-market safety testing.

• There should be a moratorium on GE foods and
crops until long term studies show they are safe
for human health and the environment.

**GE Food Moratorium
Petition**

**c/o Organic Consumers
Association
6114 Hwy 61
Little Marais, MN 55614**

Additional Personal Comments: The U.S. should not be
dragging its feet on this issue - even the EU
is moving in the right direction faster!
