Dear Commissioner Henney,

Like so many other Americans, I too am growing concerned over the misuse or overuse of antibiotics, especially in agriculture. This practice, as I understand it, has led to serious antibiotic-resistance problems in food with serious consequences for humans.

I ask, therefore, that you give very serious consideration to banning human antibiotics in animal feeds. Please do not cave in to agribusiness interests.

Thank you in advance for any consideration you might give to my appeal.

Sincerely,

Robert F. Kuebler
