Dear Commissioner Henney:

This is with reference to genetically engineered (GE) foods. First, I am concerned that genetically engineered foods would pose a dietary risk for consumers. Therefore, I believe that a moratorium should be imposed all new GE foods until they are proven safe. Further, I believe that all GE foods should be labeled and I would expect that if there are GE foods on the market now, a plan is in progress to label these foods. I want to choose the foods I eat AND MY ABILITY TO CHOOSE IS VERY IMPORTANT. I don't believe anyone wants ANYTHING forced on them. Docket No. oop-1211/CP1

Yours truly,

  
Margaret Willis
