Re: Docket No. OOP-1211/CPI and No. 99N- 4282

Dear Commissioner Henney

I would like to write in support of the petition filed on March 21. in Washington D.C. by the Center for Food Safety which demands that Genetically Engineered foods and crops be banned and pulled from the market until rigerous safety testing is done. I object being used as a guinea pig for these new foods without my consent. There is no way even to know when you are exposed to these un-natural items since the FDA has seen fit not even to label GE. foods.

Don't you have any second thoughts what these so-called foods might do to people???

Sincerely

Heike M. Eubanks
