

Dear Dr. Henney,
I am writing to express my concern over the
FDA's regulation of genetically engineered
(GE) foods. I am concerned about the agency's
current policies regarding GE foods and I support
all the policies that are in place.

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

(Additional Personal Comments:)

Commissioner Jane Henney
