Food and Drug Administration
200 C Street, N W
Washington, D C 20204

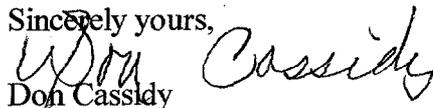

Dear Mr. Levitt:

I support the FDA's efforts to require bottled-water producers to detail reports on contaminants. This is asking no more than what public water sources are mandated.

Further, bottled-water labels should tell where the water comes from.

As a member of the Center for Science in the Public Interest, I think it reasonable that consumers need to know what's in their bottled water.

Sincerely yours,

Don Cassidy
