Commissioner Jane E. Henney, M. D.  
F. D. A.  
5600 Fishers Lane  
Rockville, MD. 20857

Dear Dr. Henney:

I wish to go on record as being opposed to the Genetically Engineering of food. We also feel that anything that is genetically altered should be labeled, so people will have a choice in the matter.

While I am writing to you I would like you to know that I am also opposed to using the Bouvine Growth Hormone in cows, or bst. We have always tried to get calcium in our diets and we really like milk but would like to be able to know which milk uses milk that is from cows using bst. I am opposed to the not labeling of milk from dairies that buy and use milk from cattle that use bst.

Many people have become discouraged and don't even drink milk anymore.

Please give the above items your gravest consideration.

Sincerely,

*Lois Greene*  
*John Greene*
