

**MEMORANDUM**

**DEPARTMENT OF HEALTH & HUMAN SERVICES**

**Public Health Service**

**Food and Drug Administration**

**Center for Drug Evaluation and Research**

1835 '00 NOV -3 P1:47

---

**DATE:** November 2, 2000

**FROM:** Leanne Cusumano *LC*  
Regulatory Counsel (HFD-7)

**SUBJECT:** Follow-up Telecon with Advamed

**TO:** Docket No. 90N-0056: Final Rule on Aluminum in Large  
and Small Volume Parenterals Used in Total Parenteral  
Nutrition

This Memorandum records a follow-up telephone call between myself and Tess Castle at Advamed regarding our previous phone conversation on August 15, 2000. On or about August 30, 2000, I called Ms. Castle, and she called me back within a week. At that time we discussed the fact that, of course, it is FDA policy not to announce policy decisions outside of normal procedures, and that the discussion we had on August 15, 2000, reflected proposed actions only.
