To Whom It May Concern - As a reader & contributor to "Farm Sanctuary" and also as someone who has lived on a farm, I urge you to grant their petition to prohibit the slaughter of downed animals Docket # 98P-0151/CPI.

No animals that are too sick or injured should enter the human food chain. The possibility of bacterial contamination, the cruelty it takes to move an animal that can't stand is beyond belief.

I have seen things that defy description and I know animals cannot speak for themselves.

If we have to have our hamburgers & steaks & chicken, why can't we at least do the best we can for these animals the short time they have to live.

I hope this gets through to someone. Thank you - Lenda & Uling
Washington state
