

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1

All GE foods should be labeled so I am informed and have a choice.

GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

(Additional Personal Comments:)

We do not want to eat genetically engineered food and have a right to know what we are receiving.

(Additional Personal Comments:)

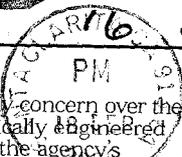

NO ADDITIONAL GE FOOD SHOULD BE INTRODUCED INTO MARKET. ANY GE FOOD SHOULD BE PULLED OFF SHELF. There must be moratorium on growth & marketing of GE
