Subject: Citizen Petition 99P-4613

You make reference to Citizen Petition 99P-4613 (CP) in your February 28, 2000, E-mail to the Commissioner FDA and ask that FDA grant the request. The CP requests that FDA 'rescind the approval of Monsanto's *Posilac* and immediately remove it from the market.' Your comment will be filed with the CP.

The FDA has this Citizen Petition under consideration and expects to issue the final response by April 20, 2000. That response will be filed on the 99P-4613 Docket and be available to the public.
