

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CP1

- All GE Foods should be labeled so I am informed and have a choice.
- GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney  
 Docket No. 00P-1211/CP1  
 FDA Dockets Management Branch  
 (HFA-305)  
 5630 Fishers Lane, Room 1061  
 Rockville MD 20852

(Additional Personal Comments:) *I have worked on the environmental risks from pesticides for several years, + GE crops will not bring a reduction of pesticide use as claimed by the chemical companies. Ask any good scientists about known risks from GE crops such as Barry Commoner of NY.*

Ms. Beth Fiteni  
 50 Gristmill Ln  
 Huntington NY 11743-2135
