FDA Commissioner Jane E. Henney
5600 Fishers Lane
Rockville, MD 20857

I am writing to express my concern regarding the addition of antibiotics used by humans to animal feed.

This practice must be stopped. The future looks bleak when the antibiotics we have are no longer effective in part because of this addition to animal feed.

The European Union has banned adding antibiotics to feed and I would encourage the United States Government to also enforce this ban.

Sincerely,

Mary Jane Yoder
