Dear Dr. Henney:

I write to express my support for the petition of the Center for Science in Public Interest (CSPI) petition to the FDA to withdraw approvals for the use of medically important antibiotics to promote growth in animals.

It is my understanding that withdrawal of these drugs for growth promotion would still allow their use in sick animals.

I urge you to favor sick children (for whom the antibiotics are primarily intended) over cheap chicken (which only brings more profits to the livestock producers and meatpackers).

Sincerely yours,

Dr. Douglas E. Wingeler
