Commissioner Jane E. Henney  
5600 Fishers Lane  
Rockville, MD 20857

Dear Commissioner:

Please protect the health of the people living here in the United States. Please prohibit livestock producers from routinely adding medically important antibiotics to animal feed to promote growth. We have a right to eat pure food and not be subjected to the effects of adulteration so the producers can earn more money. In the long run it will cost us more to deal with the health problems arising from such additives than it will to pay more for the food. Plus, some people will die. And I am sure you are aware of the realities of this situation so you know I am not exaggerating or being dramatic- just stating it as it is.

Sincerely yours,

  
Phyllis Landis
