

We label food for so many  
Dear Commissioner Henney, ~~Other things~~  
I think this would be a good addition.  
I am writing to request your support for legislation  
that will require clear labeling of all genetically  
engineered (GE) foods (Docket No. 00P-1211/CPI).  
I believe that as an American consumer, I deserve  
the right to make an informed choice when  
buying foods. Without labeling information,  
I will not be able to tell the difference between a  
genetically engineered and a non-GE product.

I strongly urge the FDA, USDA and manufacturers  
to suspend the further introduction of genetically  
engineered crops to the market without clear  
labeling guidelines and long-term environmental  
and human safety testing.

Please let me know if you intend to support this  
legislation. Thank you.
