

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211 \CP1

All GE foods should be labeled so I am informed and have a choice.

GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney 35
Docket No. 00P-1211 \CP1
FDA Dockets Management Branch
(HFA-305)

(Additional Personal Comments:) I strongly believe in the comments above.
I am totally shocked to find out that we have been eating GE foods
without knowledge. What kind of freedom is that? Is this still the USA?
